Track Business Travel While Mitigating Tax And Immigration Risk

PinPoint is an intuitive, web-based app that keeps track of mobile employees travel while enabling compliance with tax and immigration regulations. Business travelers are automatically alerted to travel documentation issues and missing compliance milestones through PinPoint's pre-travel assessment, helping to:

- Track travel and cross borders smoothly
- Manage tax and immigration risk
- Avoid fines and consultation costs

Business Travel Calendar

PinPoint's Travel Calendar makes it easy to track past, current, and future travel. Employee travel is automatically tracked through integrations with travel systems. Once an employee returns from travel they can easily confirm their trip via the simple mobile interface. Employers can "set and forget" because the system will automatically send alerts when something happens that requires their attention.

Business Traveler Risk Management

Understanding the ever-changing tax and immigration regulations of business travelers can be challenging and full of risk. PinPoint's tax and immigration assessment tool helps mitigate that risk by enabling companies to proactively evaluate compliance thresholds prior to business travel. These assessments provide organizations with the transparency needed to efficiently navigate the visa application process while avoiding any tax liabilities.

EQUUS PinPoint

Available on any device, PinPoint makes it easy for employees to check-in and verify their travel while enabling improved tax and immigration compliance for their business. With direct integrations to a company's travel providers and HR systems, PinPoint connects business travelers with the larger global workforce, ensuring streamlined processes, enhanced data analytics, and a single system for managing mobile employees.
