

Immigration

Automate Immigration Workflow

PinPoint Immigration streamlines immigration processes and provides businesses with a simple way to initiate, track, and administer cases. The app automates workflow for both large organizations that process thousands of applications a year, as well as small accountancies and law firms that perform immigration applications on behalf of clients.

How does it work?

PinPoint Immigration is a flexible solution that makes it easy to create and submit immigration cases online.

- Forms are customized to align with the business, and ask smart questions based on application type.
- Automatic notifications are sent to individuals to provide information through a simple and secure portal.
- Tracking tools estimate filing dates and provide real-time visibility over every case.
- Applications are instantly generated in to Word or PDF forms.

Why do I need it?

Manual immigration processes mean that cases can easily become stuck, requests overlooked, or updates hard to obtain. Automation keeps your processes flowing, reducing time between tasks and avoiding forgotten or missed responsibilities. Time saving features like automated emails, reminders and document merges reduce errors and time it takes to process your applications - all while keeping employee and manager data safe and secure.

End-to-End Immigration Case Management

Strong User Experience

An intuitive and clear view for all users, from an individual completing their questionnaire to a manager reviewing their tasks.

Real-Time Visibility

Track tasks, see what's next, identify bottlenecks and view the estimated filing date of every case.

Simple and Flexible

Automate emails, questionnaires and reminders with flexible flows and configuration options to fit the app to your business.

Centralized Management

All cases, documents and details are in one place, to better manage statuses, flag renewals and extensions and only request data once.

Smart Questionnaires

Easily send requests for data and integrate responses into workflows, such as generating the next task based on questionnaire replies.

Online Initiations

A professional and efficient way to initiate cases with dynamic questions, and upload documents and submit information as required.

Reporting and Analytics

Real-time dashboards highlight performance stats, monitor the progress of applications, and flag cases that require immediate attention.

Document Sharing

Easily request documents and securely share completed applications, letters and immigration documents from users online.

Tasks and Reminders

Assign tasks to colleagues, employees or clients to ensure ownership is always clear and deadlines are never missed.

ABOUT EQUUS

Equus Software is the global leader in cloud-based global mobility solutions. More than 2000 organizations around the world rely on Equus tools and technology to automate mundane, transactional work so that global mobility teams, talent management professionals and other key stakeholders can focus on adding value to the business. Founded in 1999, Equus has a proven track record for delivering cutting-edge solutions, continuous innovation and exceptional customer service.
