

Enhanced Support

The Right Skills At The Right Time

Managing a global mobility program today is hard. Budgeting issues, staffing challenges, and competing priorities can keep you from optimizing and using Equus technology to its fullest potential.

Equus Enhanced Support can help. Our trained and experienced team will partner with you to achieve your mobility objectives and help bridge any expertise or resourcing gaps that have been holding you back.

Customized Support For Your Program's Needs

Equus Enhanced Support is tailored to your program's needs with a variety of engagement options.

Technology Consulting

Your global mobility program is complex, and technology can help streamline it. Our experts will do a complete system review to ensure you are leveraging Equus tools to their fullest – from basic architecture, to policy redesign and system integrations.

Client Training

It's important for Equus users to have knowledge of the system and its features. A dedicated Equus expert can provide all users the training they need to easily and effectively perform their day-to-day responsibilities.

Feature Adoption

When you don't have the time or resources to implement new features, let Equus do the work for you. Our team will scope and deliver new features, as well as test, document, and train your team on the new capabilities.

Feature Optimization

As your program evolves, there are new ways to leverage our technology's robust features. Our experts will help you explore existing features and find new ways to create more efficiency and visibility for your program.

Process Documentation

Documentation is key to ensure best practices are followed and key stakeholders and employees get the information they need. Our team can help document your processes to keep your program running smooth.

Contact your Client Solutions Manager to learn how Equus Enhanced Support can take your program to the next level.
