

REMOTE WORK

Embracing Technology for Strategic Advantage

WORKERS DEMANDING ALTERNATIVE ARRANGEMENTS

Employees now view remote or hybrid work options as a requirement rather than a benefit. To attract talent businesses must provide more flexibility to candidates.

TECHNOLOGY NEEDED TO KEEP WORKERS SAFE AND COMPLIANT

Businesses need tools and technology giving them a systemized way to track where their workforce is located.

WHAT THE PANDEMIC TAUGHT US

From the COVID-19 Pandemic we learned it pays to know the location of your employees and their circumstances in times of emergency.

PINPOINT FOR REMOTE WORK MANAGEMENT

PinPoint runs automatic risk assessments on employee requests for remote work, so your team can intelligently analyze the outcome to either approve the request or seek additional support. Click [here](#) to find out more.
