

Immigration

Automate Immigration Workflow

PinPoint Immigration streamlines immigration processes and provides businesses with a simple way to initiate, track, and administer cases. The app automates workflow for both large organizations that process thousands of applications a year, as well as small accountancies and law firms that perform immigration applications on behalf of clients.

How does it work?

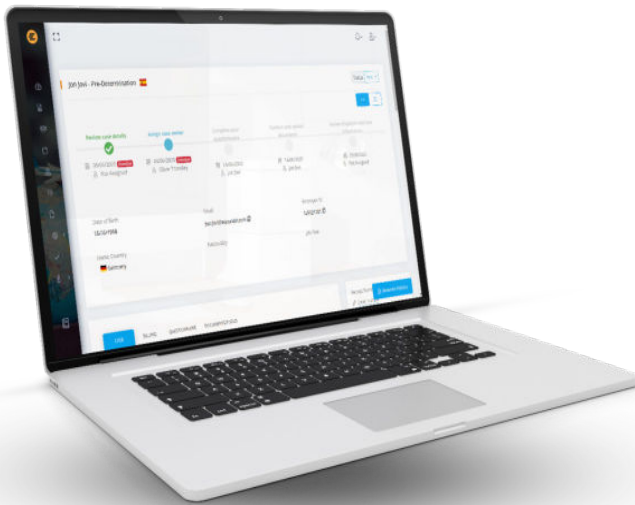

PinPoint Immigration is a flexible solution that makes it easy to create and submit immigration cases online.

- Forms are customized to align with the business, and ask smart questions based on application type.
- Automatic notifications are sent to individuals to provide information through a simple and secure portal.
- Tracking tools estimate filing dates and provide realtime visibility over every case.

Why do I need it?

Manual immigration processes mean that cases can easily become stuck, requests overlooked, or updates hard to obtain. Automation keeps your processes flowing, reducing time between tasks and avoiding forgotten or missed responsibilities. Time saving features like automated emails, reminders and document merges reduce errors and time it takes to process your applications - all while keeping employee and manager data safe and secure.

End-to-End Immigration Case Management

Strong User Experience

An intuitive and clear view for all users, from an individual completing their questionnaire to a manager reviewing their tasks.

Online initiations

A professional and efficient way to initiate cases with dynamic questions, and upload documents and submit information as required.

Real-Time Visibility

Track tasks, see what's next, and identify bottlenecks.

Reporting and Analytics

Real-time dashboards highlight performance stats, monitor the progress of applications, and flag cases that require immediate attention.

Simple and Flexible

Automate emails, questionnaires and reminders with flexible flows and configuration options to fit the app to your business.

Document Sharing

Easily request and securely share documents, applications and letters within a case.

Centralized Management

Documents and details are in one place, to better manage cases, flag renewals and extensions and only request data once.

Tasks and reminders

Assign tasks to colleagues, employees or clients to ensure ownership is always clear and deadlines are never missed.

ABOUT EQUUS

Equus Software is the global leader in cloud-based international relocation and mobility solutions.
