

Take Control with the Equus Mobile Workforce Platform

In today's interconnected world, managing a diverse and mobile workforce presents both opportunities and challenges. The Equus Mobile Workforce Platform (EMWP) empowers you to take control of your global mobility program by streamlining operations, enhancing the employee experience, and ensuring compliance with ease.

Equus Software has empowered over 2,000 companies worldwide to manage and optimize their mobile workforce with leading technology. Trusted for over 25 years, we support businesses of all sizes—from 25 moves to 100,000 mobile employees. We have a solution for every size of business and level of complexity.

Benefit from our expertise

At Equus, we hire global mobility experts—including tax, relocation and technology professionals. We have been providing global mobility management solutions for over 2000 organizations since 1999, supporting businesses of all sizes—from those that manage 25 moves, to those with over 100,000 mobile employees.

We are more than your technology provider. We work with you to transform the way you manage your mobile workforce.
